FCPE - Employee shareholding fund governed by French law

### Objectives and investment policy

This is a temporary FCPE that has been established to enable VINCI group employees to subscribe to the capital increase and/or transfer of shares reserved for them.

Prior to investment in the company's own securities, the sums received will be invested prudently.. This investment strategy involves risk of capital loss, interest rate risk and credit risk.

Following subscription to the capital increase and/or the transfer of shares by the FCPE, the management objective of the Fund will be to track the share performance, both upward and downward, of the VINCI company in which it will be invested.. As a result, the Fund will be subject to the risk of capital loss, specific equity risk related to the concentration of the investment in the stock of a single company and a liquidity risk. The FCPE is intended to be merged as soon as possible into CASTOR INTERNATIONAL, a collective employee shareholding vehicle (FCPE) invested in the Company's own publicly traded securities (the KIID for this FCPE is attached to this KIID).
